High Density Plan & Print File Storage

a

a. PiCo QuickFile 2Pin Vertical File (uses Möbus Strips)

PiCo QUICKFILE IS THE MOST EFFICIENT AND ERGONOMICALLY FRIENDLY LARGE DOCUMENT STORAGE SOLUTION SOLD.

These steel cabinets store your valuable drawings safely and economically. One cabinet can take up to 1250 sheets! Saves money when you compare the cost of 15 drawers of flat files to 1 PiCo File. All documents are in plain view at eye level, organizing and indexing is easy. No edge binding required, just one suspension strip M511 Möbus Suspension Strip per drawing enabling it to be hung on the two forks. No folding, rolling, tearing, creasing or damaging valuable drawings. Capacity: 1.250 3-mil individual documents. Maximum drawing size, 36" x 48"

- *Save Space - Up to 75% compared to three conventional flat file cabinets with the same storage capacity*
- *Saves money when you compare the cost of 15 drawers of flat files to 1 PiCoFile*
- *Save Time - Retrieve any documents in less than 15 seconds*
- *No bending or stooping, all documents retrieval done at standing level*
- *Store almost any size and type of document or material*
- *Lifetime Limited Warranty*

a. MasterFile4 Vertical Plan File

a

All parts can be Recycled

Retrieval of individual drafting sheets and re-filing made easy with MasterFile4 Vertical Plan File's unique mechanism. Each of the four sections opens with a push button ease to enable any single drawing to be extracted with minimum of fuss. When re-filing is required, the drawing can be returned to its original position just as efficiently. For pushing of heavy weights is eliminated, only the mechanism in the top of the cabinet moves. The MasterFile4 Vertical Plan File reduces space requirements by up to 60%compared to other filing systems. Capacity approximately: 3.000 3-mil individual documents Grey

Features:

- All steel construction, powder coat finish.
- Bottom retrieval flap for easy access to documents.
- Slope away front allows clearance for operators shows.
- Lid has gas strut assistance complete with card index.
- A simple control allows positive locking in all positions.
- One leaver gives the sorting position in all bays.
- Simple mechanism - carriages run on full roller bearings. The main rails parallel movement is guaranteed by gear driven rack and pinions connecting both sides together.

c. Fire Resistant Ultima File

c

Ultima-File is the high-density filing system that provides ultimate protection for large format documents. The system is fire-resistant- with insulated double steel walls and water-resistant- with a protruding apron that protects against water damage. Each file is equipped with a lock (2 keys included) to prevent unauthorized access. The Ultima-File features a unique spring compression system. Each file contains 15 spring compression pockets loaded with four heavy-duty redrope portfolios each. Gentle spring pressure keeps the folders upright and the documents flat without slipping and wrinkling. Each file can store 3000 three-mil documents for active filing or 6,000 for archival filing using only a minimum of floor space. Filing and retrieval is easy, quick and convenient with the Ultima-File. Each file includes index and folder labels for fast document location and retrieval. A fold-up shelf serves as a work surface to reference files right at the cabinet. All folders are stored at a comfortable height, eliminating stooping or bending. Mobility is another key benefit of the Ultima-File. Heavy-duty swivel casters allow the files to be easily rearranged or moved. All cabinets are available in an archival quality powder coat Autumn Haze finish. No assembly required.

PiCo Design Self Adhesive Suspension Strips

This self adhesive, pre-punched suspension strip is easily attached to each document and allows it to hang straight in the cabinet and reduces handling during retrieval. Each sheet can be identified on the carrier strip for each reference. Suspension strips are sold by the roll. Each roll can be cut into eighty-two 24" strips, fifty-four 36" strips or forty-one 48" strips as required. Available in 50 meter rolls and 100 pack strips.

High Density Archival Flat Files

a

5-Drawer and 10-Drawer Steel Flat Files

Our 5-drawer and 10-drawer models provide a reliable place to store all your valuable graphics. Files are modular so they can be used individually or in a space- saving stack. Expert engineering assures you maximum function and years of service. Closed Base raises files 6" off the floor for protection and easier access. Front is recessed 23⁄4" from file for toe space. Holds up to five files consisting of any combination of 5 and 10 drawer cabinets. Assembles easily. High Base raises files 20" off the floor. Base has enclosed back and sides with an open front for extra storage space. Sturdy all-steel construction. Holds up to two files. Easy assembly. Optional field installable Lock Kit includes lock and two keys. Warranted for 5 years.

a. 5-Drawer Steel Flat File

Versatile file stores up to 500 sheets per unit active filing, 750 sheets of semi-active or 1,000 sheets of inactive material. Five large-capacity 21⁄8" deep drawers in three cabinet sizes.

Atlas™ Blueprint Stand and Racks

Everything you need to get organized. Atlas Brand Products are made with quality in mind by the original producers of the PlahHold product. The caster wheels are wider, the caster bolt is thicker, the tubing is larger for more strength, the paint is powder coated for durability (most other brands are baked enamel paint), the welds are bigger for more strength and the construction is built to last decades. All clamps, wall racks and mobile stands are interchangeable with Safco, PlanHold, Mayline and other major brands.

All *Atlas* Products carry a Limited Lifetime Warranty.

a

a. Atlas Hanging Clamp

Extruded anodized aluminum clamps will hold up to 100 sheets securely without punching or stapling. Heavy duty chrome plated steel wing knobs open and close the clamp. Clamps are interchangeable with other manufacturers. Sold in cartons of six. All clamps are interchangeable with Safco, PlanHold, Mayline and other major brands.

Model	Description	Sheet Size	Clamp Length	Weight

Drafting/Drawing Tables Layout Tables & Board Cover

b. PlanMaster Height-Adjustable Drafting Table

b

Achieve creative savings at a fraction of the cost, the PlanMaster provides the height and board angle adjustment of a traditional 4-post table. Raise your drafting table with a convenient spring-assisted mechanism that adjusts from 30" to 37" in height. The top angle also adjusts up to 50°. You don’t have to scrimp on quality to save. The PlanMaster retains both durable and attractive design with a black finish heavy-duty steel constructed base. Minor assembly is required.

Model	Description	W x D x H
01395700	PlanMaster Base Black	43 x 29-1/2 x 29-1/2
03603648	Table Top, White	48 x 36"
03603860	Table Top, White	60 x 37 1/2”

c. Precision Drafting Table up to 72” Top

c

Function with precision. The durable utility design of the Precision drafting table keeps your workspace productive. Traditionally styled, the Precision table features a heavy-gauge 4-post steel base with bottom stabilizing bars. You can easily adjust your board up to a 50° angle with no tools and no hassle. Locking tool drawer and reference drawer. The Precision is available with 60" and 72" sturdy ¾ " smooth drafting boards. that are sold separately

Model	Description	W x D x H
01396200	Precision Drafting Table Base, Gray	43 x 29-1/2 x 29-1/2

03604472	Table Top, White	72 x 44” x 3/4”

d. PiCo Tech-Mate Table

d

Constructed of tubular steel and fabricated metal, it has black foot rest and hand wheels. This elegant work table adjusts from desk height (30") to standing height (42"), while the board angle adjusts from horizontal to vertical. A storage shelf is incorporated within the center frame. The Tech-Mate is also available in a 36"x48" size (Model 03713648).

Model	Description	W x D
03713042	Tech-Mate Table with 30 x 42" Top	42 x 30"
03713648	Tech-Mate Table with 36 x 48" Top	48 x 36"

e. Studio Fold-Away Table

e

Compact, sturdy and attractive in design, the Studio fold-away table lives up to its name. It can be folded and put in a closet whenever it isn’t needed and is perfect for home, schools, office or studio where space is a commodity. White base made from 1 ½“ tubular steel with durable powder coat finish, 30 in. x 42 in. laminate work surface. Height adjusts 29” to 44” in the horizontal position. Tabletop tilts from 0 to 45 degrees.

Model	Description	W x D

a

a. Split Level Drafting Table

Elevate your workspace. Enhance your performance. Accommodate your needs. Ideal for a variety of users ranging from students and architects to engineers and designers. The station functions as your personal drafting table, work space and shelving area, computer desk, and more. Achieve ultimate efficiency. Tables can easily be lowered to serve as one flat working surface or raised to perform as a standing height workstation. Perfect for drafting, the table top tilts up to a 50° angle. Adjustable and durable, the Split level workstation features a strong steel frame and wood grain melamine top. Table has a height adjustment of 26 to 37-1/4 ".

Model	Description	H xW x D
013965MO	Split Level Drafting Table, Medium Oak	37 x 47x x29”

b

b. Hobby Pal Table

Designed for hobby, studio or school use, the compact Hobby Pal stand is fully dismount able, is the ultimate in simplicity. The rigid base framework is fitted with chrome angle brackets allowing full angle adjustments. Constructed of tubular steel and fabricated metal, the Hobby Pal adjusts from (24") to (36"), while the board angle adjusts from horizontal to vertical. This base will support board sizes 24 x 36", sold separately. Made in Canada.

Model	Description	W x D
03700002	Hobby Pal, base only, White	42 x 30"
03602436	Table Top, White	24"x 36"

c. PORTABLE DRAWING BOARD

The Portable Drawing Board is robust and accurate and incorporates a parallel motion unit running on a pulley system. The straight edge is of has transparent acrylic edges. The board can be used flat or at a working angle. These portable drafting boards come in 24" x 36" for paper up to size 22" x 34"

c

Key Features Include: Solid-core, satin-finish, white, melamine laminated drafting board, Top-Mounted Standard Parallel Ruler (Straightedge), Moulded plastic carrying handle for easy mobility, Durable folding back legs for increased height

Model	Description	W x D x H
03712436	Portable Drawing Board with Parallel Ruler	36 x 24”

d

d. PiCo Ply Drawing Board Cover (BORCO) Kit

Durable, versatile, easy-to-install PiCo 5-ply plastic board cover for the cover of drafting tables, drawing boards/work surfaces and other heavily used surfaces. Easy to clean - a damp cloth or sponge wipes away grime, grease, eraser particles, etc. Easy to install - can be cut to size with ordinary scissors and attached easily with PiCo- double-sided tape which is included.

Scalex Planwheels And Accessories

a

Scalex Planwheel XLU2 Plan/Map Measurer

If you want to measure plans the fast, accurate way, then the Scalex PlanWheel XLU 2 is it. Here's the perfect tool for taking scaled measurements from blueprints, maps, and plans. Just select the built-in scale factor to match the plan and roll the PlanWheel. The measurement is displayed instantly. The PlanWheel is portable and uses two AAA batteries (included)

Features:

- 111 built-in and 3 user-defined scale factors.
- Includes all common scales - imperial too.
- Measures in kilometres, meters, centimetres, feet, yards, miles and inches.
- Calculates square and cubic dimensions for regular areas and volumes.
- Counter and mode buttons on probe tip let you count items or add fixed lengths as you scale.
- Calculate auto-scale factor from reduced, enlarged or odd-scale drawings
- Create, store and retrieve 3 user-defined scale factors
- Clear, audible tone indicates wheel movement
- Automatic shut-off assures long battery life with low battery indicator
- USB Compatible (USB Cable not included)
- Offers a positive/negative (+-) mode allowing user to simply back up to deduct

PlanWheel sold separately

Specifications:

Accuracy: ± 0.25%, Resolution: 1.0mm
Batteries: 2 AAA (included) **Optional hard protective case sold separately.

Auto-Scale Factor - Roll the wheel over a known distance on the print and enter that distance from the keypad and the Plan Wheel will automatically calculate the scale factor for you. One year manufacturers warranty.

Model	Description
09200550	PlanWheel XLU2, *Can be upgraded with PC interface*
09200502	PlanWheel SA2, *Cannot be PC interfaced*
09200215	Case for all PlanWheels

b

b. Scalex Scale-Link USB2

The industry standard plan take-off tool for entering linear measurements from your blueprints, maps, or plans into any Windows program. Just roll the scaler wheel along your print, then click to instantly transfer the measurement into your program. The "Deluxe Kit" Scale-Link USB is specially suited for all Microsoft Windows construction estimating software. Also works with Excel, Quatro Pro, Lotus 1-2-3 and other spreadsheets. And works with Access, dBase, Paradox, Foxpro and other databases. The Planwheel XLU 2 can be used without the interface kit if you desire to do so. If you buy the Deluxe Kit, you are saving money instead of buying the PlanWheel XLU 2 and Interface Kit separately. Includes PlanWheel XLU 2 , Ready Connect Software, Protective Case, USB Cable.

System Requirements: Windows PC, CD drive, USB Port, Works with all Windows

Model	Description
09202000	Scale Link USB2

c

c. Scalex Scale-Link Wireless

Scale-Link Wireless contains everything you need to get started. The included PlanWheel can be used remotely in the field or interfaced with your PC at distances of up to 25 feet. All Windows construction estimating software, Excel, Quatro Pro, Lotus 1-2-3 and other spreadsheets, Access, dBase, Paradox, Foxpro, and other databases

Scale-Link Wireless Includes:

PlanWheel WL Scaler, Ready Connect Software, Charging Cradle w/ USB Cable, Protective Case One Year Warranty, User Manual, Rechargeable Batteries (2AAA) . Note: If you order multiple quantity, we will ship differing channels so that the products wireless channels do not interfere with each other. If you want something otherwise, please contact us before placing an order.

System Requirements: Windows PC, CD drive, USB Port, Works with all Windows

b

b. PiCo Mechanical Planimeter

PiCo Mechanical Planimeter is the most popular type. They are economical and offer good overall accuracy and range for most applications involving medium sized areas. The measuring wheel rides directly on the measuring surface. It is integrated into a measuring mechanism with a dial, drum and vernier readout system with a maximum counting capacity of 4 digits (9999). Pico Planimeter is among the most precise and reliable instruments of this type with these features: This model is equipped with a vernier magnifier and with a zero set wheel. Features like a tilted body design and a parallax free tracer lens permit convenient operation without the need to bend over the instrument during tracing and readout. Protective hard case is included.
Typical Measuring Range is 6" x 13".
Max Resolution: 0.01 sq.in
Accuracy: +/- 0.2%

Model	Description
09200010	PiCo Mechanical Planimeter

c

c. PiCo KP 90N Digital Planimeter

PiCo KP 90N Digital Planimeter allows you to take area and line measurements from maps and other sources with accuracy within ±0.2 percent. All are suitable for a wide range of applications, including construction and civil engineering work, land development planning, agricultural and forestry work, and as teaching devices in schools.

Technical Specifications:
Type: Roller Type With Computing Function
Display: Liquid Crystal, 8 digit figures10 symbols
Symbol: Batt-E, SCALE, MEMO, HOLD, cm^2, m^2, km^2, in^2, ft^2, acre
Converting Function: Unit and Scale value
Accumulated Measuring Value: Maximum $10m^2$ (scale 1:1)
Maximum vertical width: 325mm, Horizontal roller rotating length: 30m
Accuracy:Within ±0.2% (within ±2/1,000 pulses)
Power Supply: Built-in Ni-Cad storage battery (rechargeable AC adapter) AC 120V (using the supplied AC adapter) (provided with auto power-off function)
Operating Duration: Approximately 30 hours continuous operation
Battery Charging Time: Battery Charging Time
Main Unit Weight: 750g
Accessories: Supplied AC adaptor and carrying case

Premium Paper Trimmers & Self Healing Cutting Mats

Available in 20", 28", 36", 51" and 59"Rolling Trimmers are the new generation of paper cutters. Designed for safety and accuracy, the cutting blades are encased in a plastic housing that virtually eliminates the chance of personal injury. The rotary action of these trimmers allows the blade to cut in either direction and sharpen itself as it cuts. It's this self sharpening action that produces a clean burr-free cut and guarantees many years of smooth precise cutting. These model are used in graphic, design and photographic studios for fast, accurate, burr-free trimming of paper, laminated materials, photos, transparencies and film.

a

b

Features:

- •Self-sharpening blade cuts either direction
- • Inch and metric measurements with metric sizing grid for precise cuts
- • Sturdy metal base will not warp or crack
- • Thick walled aluminum guide rod
- • Automatic clamp holds work securely
- • Adjustable backstop fits on either side
- • Cuts up to 10 sheets (70gsm) of paper at a time
- • ⅛" Thick blade is made of ground steel and encased in plastic housing for safety
